#### INTENDED USES:

Easy to use green clean product for public places interiors and public areas such as offices, supermarkets, hotels, transportation stations, restaurants, cafe, diners, theaters, cinemas, service centers, malls, schools, guest houses, municipal facilities and other open public facilities.

#### PRODUCT DESCRIPTION:

Green product based on nanotechnology are prepared from mixture from liquid polymers with included nano composition. They form in surface the optically transparent coating refreshing interior details of the clean house. Green products for home interior fill the defects in surfaces and visually eliminate them after polishing that enhances the effect "clean house".

This professional product is an ideal way to keep clean all interior parts of public place. Product is eco-friendly, easy to clean and freshens the look of surfaces. Application of protective layer takes only a few minutes. Cleaning process is very simple and requires no special cleaning equipment. Coated surfaces are only cleaned by microfiber cloth as dirt particles and other fouling cannot adhere to surface. No scrubbing with expensive and toxic cleaning chemicals anymore. What could be easier!

This pro cleaner is universal in use and adds protective transparent layer. Coated surfaces obtain improved anti static properties, greatly improves UV protection what makes interiors look more fresh and beautiful. As a result of protective layer the spreading of infections and bacteria decreases, as they do not have anywhere to adhere.

eco-friendly protective polish and cleaning product CleverCLEAN PRO for public places is the most optimal cleaner for cleaning companies, cleaning agencies and all janitors of public facilities. Product consumption is only 3 grams per square meter and it will give you outstanding cleanness to delight your clients, customers and visitors.

Boost your quality and make your cleanings more environmentally friendly and effective with pro cleaner by Nanoformula Factory! CleverCLEAN PRO for public places – offer your clients the best protective cleaning service.

Keeping time: 3 years from date of manufacture (in packing).

# TECHNICAL INFORMATION:

Parameter	Specification
Appearance	Milk color oily liquid
Vapor Density, air = 1	not determined
Volatility,%	not determined
Boiling point, <sup>o</sup> C min.	185
Melting point, °C max	-50
Evaporation rate	not determined
Viscosity, cSt	15-25
Specific Gravity, g/cm3	1,020-1,105
Flash point, 0C, min	69
Auto ignition Temp., 0C,min	not determined
Solubility	Alcohol, Ether, Acetone

Removing coating from surface is possible with alcohol (ethyl or isopropyl), also by steam and next mechanically with microfiber cloth.

## SURFACE PREPARATION:

Surface must be dry and clean before applying first time. For re-coating necessary only dry surface. It is not recommended to treat the window glass inside placement when not good air exchange because super hydrophobic surface can be reason of the unwanted sweat in window glass.

#### APPLICATION:

For application recommended microfiber cloths: terry structure for distribution/removing exceed of the product and plane (polish) structure for polishing coated surface. Both cloths must be prepared from 20% polyamide and 80% polyester and density not less 250g/m2

Coat is possible under any outdoor temperature.

Recommended use product quantity as less as possible. Consumption is only 3g/m2 with possible losses. Useful coating in surface is only 1g/m2.

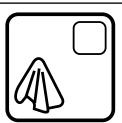

Shake the bottle before use. Little wet terry cloth with product Cloth. Terry without excess. Close cap after use.

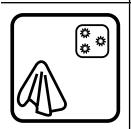

Evenly distribute the product on dry surface by Cloth.Terry.

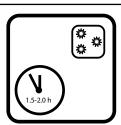

Wait 3-5 min.

Remove exceed the product by same terrycloth.

Polish by plain cloth Cloth. Polish the surface.

Don't expose the surface by rain or by action with wet cloth about 1,5-2 hours. Protective surface is obtained the best protection in 12 hours after coating.

#### PRODUCT HAZARDS AND SAFETY INFORMATION:

See Material Safety Data Sheet for complete Health and Safety information. Do not use in confined areas without the proper safety precautions/equipment.

#### ADDITIONAL DATA:

Product is prepared according to existing legislation European Union. Product has not volatile matter and holds the nano components tight inside its structure. Nano particles cannot be separated one from polymer mixture. It guarantees that nano-sized particles do not get "loose" and incur to human organism and harm our health and surrounding environment. Product waster

Lasting effect: 3 months min and depend from external environment.

## PACKING OF THE NANOTECH EASY TO CLEAN PRODUCT CLEVERCLEAN PRO FOR PUBLIC PLACES

Product is packed in 450g bottle.

20 bottles in carton;

Carton's size: 25cm x 36cm x 25cm Carton's gross weight: 10.32kg

Pallet: 72 cartons/1140 bottles

Pallet's size: 120cm x 100cm x 215cm Pallet's gross/net weight: 743kg/768kg

Labels in three languages: English, Estonian, Russian;

Order customized labels is beginning from 500 units min. per product.

## SHIPPING AND EXPORT INFORMATION

Non-hazardous for any transportation.

Export HS code: 3405909000
